Service Project

As a volunteer, you and your organization have a unique opportunity to come together as a team to make a difference in the lives of people with intellectual disabilities. Our current project is to build wheelchair accessible gardens that would be used at our Day Learning locations and our group homes where the men and women we support live. The tabletop gardens will enable anyone we support to have access to the gardening experience that will be utilized for cooking classes and shared meals for our programs.

Our Gratitude

Shout outs on social media, listing on our website as a corporate supporter, and invites to exclusive events throughout the year.
